

### TemPak™ Fabricated Insulated Shipping Containers

TemPak™ fabricated insulated shipping containers provide a cost-effective way to ship temperature-sensitive materials. Constructed with expanded polystyrene (EPS) insulation panels, these packages can be used to ship a wide variety of applications within the cold chain.

### Features

- Compact size allows for easy storage, freeing warehouse space
- Customization of various pre-printed corrugate configurations or custom printing allows for individualized solutions
- Rugged construction of 200# test, RSC ensures outer carton will hold up to the rigors of shipping
- Flexibility of sizing and foam density provides the right fit without costly tooling charges
- Can be purchased fully assembled or unassembled to meet your specific needs
