The Perfect Degree of Protection

Cold Chain Packaging Solutions

Ice-Pak™ and Ice-Pak™ Brick

Ice-Pak™

Ice-Pak™ bottles are filled with our premium water-based, non-toxic Perma-Gel. With a freezing/melting point of 0°C, these packs are used to transport temperature-sensitive items safely and more efficiently than ice. The durable HDPE plastic makes them reusable and provides excellent protection in cold chain applications.

Ice-Pak™ Brick

Ice-Pak™ Brick foam bricks have a freezing/melting point of 0°C and offer superior thermal performance when transporting temperature-sensitive products. They feature a consistent, uniform structure that is maintained even after freezing. Vacuum-sealed in durable film, these bricks are ideal for defined and precise packaging configurations.
