

Pre-Qualified Bulk Pallet Systems

Cryopak’s bulk pallet systems are pre-qualified against some of the toughest industry standards to ensure high performance when shipping bulk temperature-sensitive material. Offered in both 2-8°C and CRT options, these systems are designed to be lighter, more cost-effective, and quick and easy to assemble – all without sacrificing performance. The Bulk Pallet Shipper is sized to fit on a single 40”x48” pallet, while the Bulk Pallet Transporter is oversized and able to maintain the temperature of a full 48”x51” pallet load.
