

### CryoArc Pre-Qualified Pallet Shipper Lite

The CryoArc Pallet Shipper Lite is a very light insulated container offering superior thermal performance and able to withstand the heaviest loads. It has been specially designed for the transport of thermosensitive products in a cold chain between + 2° / + 8°C for a duration of transport.

The CryoArc Pallet Shipper Lite is a simplified version of our pallet shipper. By targeting performance in both summer and winter more precisely, we have simplified the design and reduced costs.

### Product Details

Item #	Product Name	Temperature Range	ID of Payload Box L x W x H (in)			Payload Mass (lb)	Duration (hours)
FPIR00016	CryoArc Pallet Shipper Lite	2-8°C	32.75	25.38	30.63	140	120

### CryoArc Pre-Qualified Pallet Shipper Lite

The CryoArc Pallet Shipper Lite is delivered to you already mounted on a US pallet specially selected to meet international regulations (optional casters) and with an outer protective cover (optional) to secure the shipment to your warehouse.

Seals are also available to guarantee its inviolability.

The CryoArc Pallet Shipper Lite is an **insulated container** designed for users. Everything has been designed to facilitate the packaging of the Pallet Shipper by your operators:

- opening on the long side for **easy filling**
- slides to wedge the sources of cold previously preconditioned in the tray for more **convenience**
- Solution using only water-based refrigerants. No use of PCM.

We offer you a complete CryoArc Pallet Shipper Lite kit with all the accessories and cold sources necessary to maintain the temperatures of your heat-sensitive products according to the duration of your transport and your temperature profile.
