

Gel Packs

Cryopak's Gel Packs are available in multiple sizes and weights and are a convenient way of keeping your temperature sensitive shipments within the desired temperature range.

They are designed to protect products from freezing or over-heating for the safe transport of food products, pharmaceuticals, and other medical products. These gel packs are used in our trusted pre-qualified shipping containers and will help protect your products against excessive high or low temperatures.

Features

- Non-Toxic and non-hazardous
- Packaged in durable plastic film; "no sweat" option available to help protect against condensation.
- Private labelling available to promote your company branding; not available for "no sweat."
- Freezing/melting point of 0°C.
- Customizable to fit any gel pack size, print, or need based on large volume product distribution.
