

Cryopak

The Perfect Degree of Protection

Cold Chain Packaging Solutions

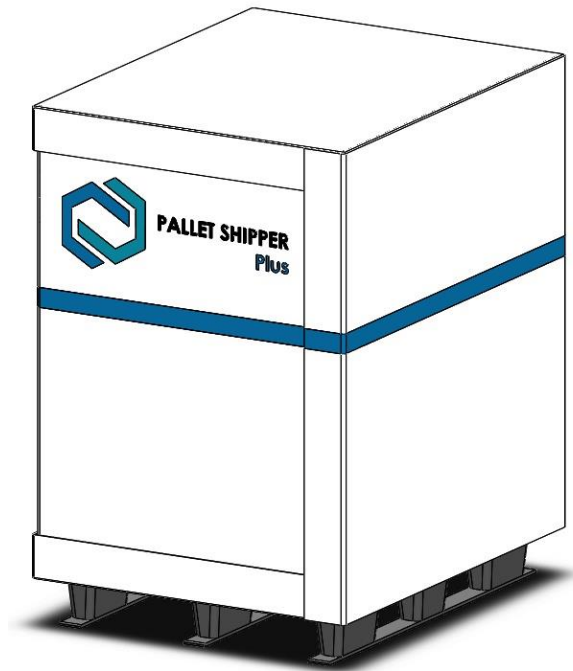

CryoArc Pre-Qualified Pallet Shipper Plus

The CryoArc Pallet Shipper Plus is a very light insulated container offering superior thermal performance and able to withstand the heaviest loads. It has been specially designed for the transport of heat-sensitive products in a cold chain between + 2° / + 8° C for a transport period of up to 120 hours. It is available in half-size or in full size. It is optimized to the standard size of a pallet and to the maximum height for air transport.

The expertise developed in recent years with our customers around this product has made our CryoArc Pallet Shipper our flagship product. The CryoArc Pallet Shipper Plus is made from 60mm polyurethane panels coated with a kraft surface.

It is produced in series and is therefore readily available. We have a permanent stock to deal with seasonal peaks in your activity.

Cold Chain Packaging Solutions

CryoArc Pre-Qualified Pallet Shipper Plus

The CryoArc Pallet Shipper Plus is delivered to you already mounted on a US pallet specially selected to meet international regulations (optional casters) and with an outer protective cover (optional) to secure the shipment to your warehouse.

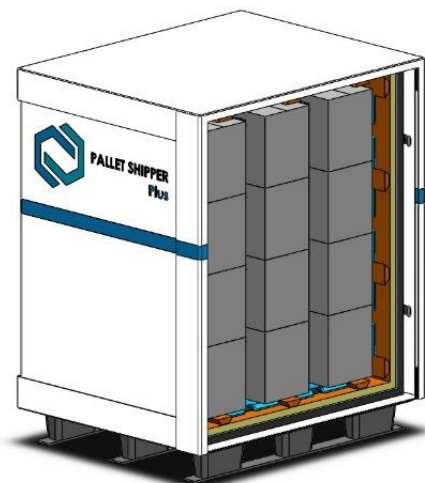

Seals are also available to guarantee its inviolability.

The CryoArc Pallet Shipper is the **only insulated container** designed **by** users and **for** users. Everything has been designed to facilitate the packaging of the CryoArc Pallet Shipper by your operators:

- opening on the long side for **easy filling**
- slides to block the sources of cold
- protective cardboard to be placed between the products and the cold sources to **avoid cold peaks**
- reinforced closing hinges to **limit** breakage

We offer you a complete CryoArc Pallet Shipper kit with all the accessories and cold sources necessary to maintain the temperatures of your heat-sensitive products according to the duration of your transport and your temperature profile.
