

### TemPak™ Molded Insulated Shipping Containers

TemPak™ molded insulated shipping containers are constructed with expanded polystyrene (EPS) insulation and can be used for a wide variety of temperature-sensitive shipments. These rugged containers are conveniently pre-packed into bundles with top and bottom caps and stretch wrapped for protection.

#### Features

- Interlocking lid design which significantly decreases dissipation, while increasing your R-Value
- Standard with corrugate, or available without corrugate
- Outer carton made of 32ect white corrugate
- Customization of various pre-printed corrugate configurations or custom printing allows for individualized solutions
